NEW FRONTIERS UPDATE November 2023

'Tis the season of gratitude, and Christy and I want to thank the OSU Agriculture family for welcoming us back to campus. The past few months as vice president and dean of OSU Agriculture already have been incredibly rewarding. I've reconnected with familiar faces and met so many new people here on campus and around the state. This semester has been packed full of events and activities, and I look forward to what the future holds for OSU Agriculture and our three mission areas of teaching, research and Extension.

I want to thank our donors and supporters who have helped make the New Frontiers project a reality. The New Frontiers construction process has been fun to watch, and we've been blessed with exceptional weather to keep us on schedule. I'm also proud of our students as they wind down the semester, and I'm grateful for the dedication of our faculty and staff statewide.

[Farm](#) as its flagship project for Giving Tuesday. On Nov. 28, I encourage you to support the OSU Student Farm, which is a collaborative effort between OSU Agriculture and Stillwater's Our Daily Bread and Resource Center. The OSU Student Farm provides students with hands-on learning opportunities in cutting-edge sustainable food production methods and attracts a new generation to food, agriculture and health. Please watch for more information on this beneficial cause.

Together, we are embarking on New Frontiers!

With gratitude,

Jayson Lusk
Vice President and Dean
OSU Agriculture

Facility Fast Fact

New Frontiers Agricultural Hall will include **10 dedicated club and study rooms** and **19 huddle rooms**. These spaces will be beneficial for small group collaboration and for faculty to interact with students and other faculty members.

Featured News

While the corner of Farm Road and Monroe Street on the Oklahoma State University campus may currently be an active construction site for the new home of OSU Agriculture, OSU Landscape Services has plans to transform the area into a beautiful and educational landscape environment.

Featured Donor

Tammy Lee Bove, Major Gift Donor
Named Space: Mary Lee Rodeo Excellence
(Rodeo Coordinator Office)

"From the groundbreaking until now, it is hard to believe they have been able to accomplish this much over the past 3 years. It's amazing to see the progress, and I'm super excited to attend the grand opening. This building is going to set the standard for what other agricultural programs in the country have to catch up to achieve. Go Pokes!" – **Tammy Lee Bove, OSU Animal Science, '95**
