

# **July 2025**

July is a vibrant time in OSU Agriculture, filled with events and milestones that showcase the strength of our land-grant mission in action. This month, we welcomed hundreds of youth from across the state to engage in hands-on learning and deepen their understanding of animal science during the OSU Big 3 Field Days. It's always inspiring to see the next generation of agricultural leaders in action.

We also recently released the 2025 Wheat Variety Trial results, a critical resource for producers making decisions that impact their yields and livelihoods. These trials reflect the hard work of our researchers and Extension specialists, and they underscore our commitment to providing science-based solutions that serve Oklahoma agriculture.

As we look ahead to the fall, I'm excited about the momentum we're building. Whether it's through innovative research, impactful outreach or transformative education, OSU Agriculture continues to lead with purpose.

Warm regards,

hapon Sisk

Jayson Lusk

#### Dr. Lusk's Lens

#### **Student Success**

Dr. Lusk interacts with Ferguson College of Agriculture students in the Hilst Center for Student Success in Agricultural Hall. The space provides tools and opportunities for education, personal and professional growth.

## **Mission Focus**

OSU Agriculture is comprised of the Ferguson College of Agriculture and two state agencies: OSU Ag Research and OSU Extension. Learn the latest from our three mission areas.

## **Teaching**

Robert Terry Jr. receives the Ferguson College of Agriculture Dick and Malinda Berry Fischer Award for Teaching Excellence.

#### Research

A new trio of OSU wheat varieties, the OX varieties, might just be the food solution for consumers interested in fewer additives.

#### **Extension**

Oklahoma 4-H'ers participate in the 4-H Outdoor Adventure in Colorado, hiking scenic trails and tackling whitewater rapids.

## **Empower Stewardship of Natural Resources**

OSU Agriculture is committed to empowering responsible stewardship of natural resources through a strategic focus on water, soil, rangelands, forests, fisheries, wildlife and fire management.

By advancing research and education in sustainable water use, OSU Agriculture aims to ensure the availability and quality of this vital resource for future generations. Through these efforts, OSU Agriculture strives to lead in the conscientious care and sustainable oversight of natural resources, ensuring their preservation and responsible use.

#### **Blooming Success**

Horticulture major Barrett Allen has found success in applying knowledge to real-world scenarios. When he's not learning new concepts in the classroom, Barrett is growing his business, a U-pick flower farm located outside of Ardmore, Oklahoma.

Since starting Dogwood Blooms in 2023, he continues taking what he's learning through the faculty and coursework in the OSU Department of Horticulture and Landscape Architecture to help his business thrive.

# **Hands that Help**

## **State Volunteer Award Recipients**

Congratulations to the Oklahoma 4-H volunteer award recipients!

Taylar Burke from Pittsburg County has been named the 2025 State Volunteer of the Year, and Josh Grundmann from Pottawatomie County has been honored as the 2025 State Lifetime Volunteer.

## **Voices from the Field**

## "SUNUP" - The Last Harvest

"SUNUP" tags along for a bittersweet wheat harvest at Schieber Farms in Kay County, Oklahoma, where lifelong farmer Don Schieber says it's time for him to retire.

## **Sow and Grow**

# "Oklahoma Gardening" - Daylily Research

"Oklahoma Gardening" Host, Casey Hentges, joins Langston University Associate Professor Kanyand Matand to learn about daylilies research.

# **Photo Spotlight**

#### **Local Blackberries**

Freshly picked blackberries from N40 Berries in Stillwater — a sweet taste of summer and a perfect example of agritourism in action.

#### **News & Events**

## **Fighting Food Insecurity**

Sophia Darrow, a horticulture graduate student, is conducting surveys centered around the barriers grocery stores face.
